

GINGKO MIRROR
INCLUDED
design for everybody

A playful and versatile mirror cabinet, designed to complement any bathroom or bedroom. Currently being tested by people with dementia. Designed and manufactured in Scotland, UK. Finished by hand.

Materials: Powder coated steel, solid American cherry, marine grade stainless steel.

Dimensions: H510mm W470mm D110mm

The problem

People living with dementia can be confused by mirrors and may fail to recognise themselves. The mirror might be perceived as a window, or their reflection could be seen as someone unfamiliar, or an intruder.

The solution

The laser cut leaf pattern allows those with dementia to glimpse their reflection slowly, giving some extra time to process the content of the cabinet. Opening the cabinet doors provides a gentle reveal of the mirror and is playful and theatrical, adding a little charm in everyday routines.

Solid American cherry

Beautiful and unique to each cabinet, finished by hand.

LED Lights

Bright, long lasting lighting.

IP44 Rating

Water intrusion protection rating for zone 2 and 3.

Built in demister pad

Clears the mirror of any condensation.

Powder coated steel

Tough, durable protection against moisture and rust.

Crystal clear mirror

Untinted, pin sharp reflection.

Marine grade stainless steel handles

Designed for the yacht industry to withstand the toughest moisture conditions.

Magnetic closure

Extra strong magnets secure doors shut.

on/off infrared sensor switch

Contactlessly wave on and off, even with wet and soapy hands.
